

PCMS-320XS PRO

Trailer Mounted Variable Sign Trailer

The NEW 320XS PRO VMS, now with fitted speed radar, is based on our most popular 320X trailer-mounted variable message sign. It features a touch controller, opti-power lens, solar panels, JamLogic Fleet Software and stealth technology, to provide the most reliable and cost-effective message sign on the market. The 320XSP has a compact design which makes it perfect for use on motorway construction projects where space is limited, in urban areas and in high wind conditions.

Characters

9 to 12 characters per line
30 x 56 pixels
342 pixel height
3 lines per page

Automated Brightness Control

Light intensity adjustments can be automated for day time and night time light

Hydraulic Lifting System

Allows one person to easily raise and lower the board

Lockable Control & Stealth Battery Boxes

Maintenance-free batteries
Anti-theft hidden battery compartment

Four Leveling Jacks & Jockey Wheel

Stabilization and easy transportation with jockey wheel for easy maneuverability

Electro-Hydraulic Lift Mechanism

For quick and effortless deployment

Full Matrix High Performance SMD LED Screen

Create bold and bright characters with greater angularity

Rugged Indexed Rod Mast Brake

Sign can be positioned at 270° (15° increments). The Screen Lock secures the screen in place

Multi-Fit Tow Coupling

Dual tow ball coupling designed to fit both 1 7/8" and 50mm towballs

Powder-Coated Steel Construction

Powder coating superior finish – impact, humidity, salt spray and rust resistant. Highly visible both day and night

ON THE SIGN

Using our V-Touch Controller

NEAR THE SIGN

Using our V-SYNC Wi-Fi

REMOTELY*

Using JamLogic® Web on your computer, tablet or smartphone

Applications

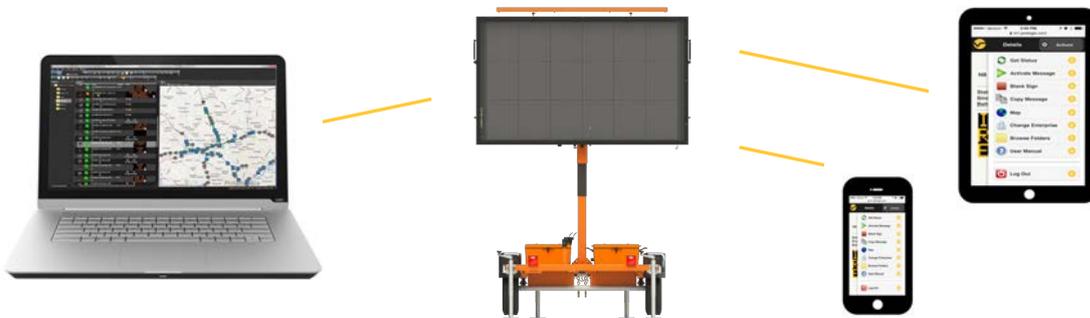

- Traffic Management
- Project & Work Zone Updates
- Event Management
- Emergency & Safety Alerts
- Network Incidents
- Road works & closures
- Queue Management
- Advance Warning
- Speed Feedback & Data Collection
- Cautioning Motorists

Optional Extras:

- Cameras
- Radar with Data logger
- Full Rainbow Colour Model
- Battery Charger
- Custom options are available
- 10 year secured Ver-Mac data plan

JamLogic Fleet Management Software

Remotely monitor, maintain and manage your traffic control equipment from any PC, laptop, tablet or smartphone!

- Interactive list and GPS map view of all equipment with active status
- Device sharing with customers
- Display a message to 1 or many signs at once
- Change font size height or width
- Message library
- Intuitive Custom folders (i.e. by projects or customers)
- color coded icon system to monitor any issue
- Message scheduling
- Create your own graphics or logo
- Update your JamLogic screen automatically
- Receive automated e-mail alerts & updates
