

# 450mm Road Cones for Line Marking

We offer two different road marking cones - both are a slim profile cone and they may be used to delineate and protect wet road markings but will not be compliant for any other use on the roads under NZGTTM.

- Dimpled feet to assist release
- Class 400 retro-reflective grade cone collars
- Feet design to allow water to flow easily under the cone

Cone collars meet:  
AS/NZS 1906.1 Class 400 retro-reflective material requirements

## One Piece PVC Cone

One Piece PVC Cone with Class 400 retro-reflective grade Cone Collar.

*Dimpled Feet*

## Slim Composite Cone

Virgin PVC Upper with an injected Molded PVC flexible recycled base.

*Dimpled Feet*

## Other Cones

### Miniature 90mm Cones

Used for photographic evidence or forensic markers. Please note, minimum order quantities apply on this product.

Other colours available on request:

- Green
- White
- Yellow

Please note: non stock item - minimum order applies.

### Slim Composite Plain Cone

It has all the same features as our 450mm Slim Composite cone above with the only difference being it has no retro-reflective cone collar.

Ideal for non-highway i.e. private situations like car parks, schools, sports grounds, conferences, pedestrian walkways\*.

\* NZGTTM requirements do not apply in these situations so smaller cones may be used.
