*Premium Cone Collars  
for enhanced visibility  
& durability*

*Old cones returned  
for recycling*

*Cones are shredded*

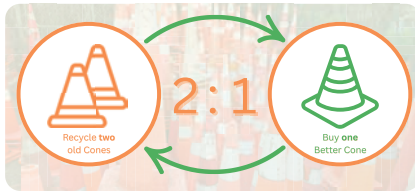

*Better Cone made  
in New Zealand*

*Purchase the Better  
Cone (2:1 see over)*

Our 2:1 Programme is straightforward: For every 2x cones you recycle, you commit to purchasing 1x NZ-made Better Cone. By choosing Better Cones, you're not just meeting compliance requirements—you're actively contributing to a more sustainable road safety industry.

## 2:1 Better Cone Recycling

### Cone Acceptance Criteria

Our 2:1 Sustainability Commitment is straightforward: For every 2x cones you recycle, you commit to purchasing 1x NZ-made Better Cone. The quality of the cones matter. Check out the process and acceptable criteria below.

#### Process:

- Contact RTL via our online form and submit photos of cones
- Cones must meet criteria below.
- RTL will send you a return label to attach to the cones before delivering to our depot.
- There are no additional fees for recycling.

#### Pre Checks:

Remove any rocks / stones from the underside of the cone. Why? These cause serious damage to the machinery.

#### Unacceptable Cones:

Cones with large amount of bitumen/ tar, gravel, chipseal or any other foreign objects like screws, stones, or nails cannot be recycled.

##### NO Screws Nails or Stones

##### NO Excessive Bitumen

##### NO Excessive Dirt, Slurry or Chipseal

If unacceptable cones, broken bases or small broken parts are received, the disposal fee is \$6.00 + gst per cone / per cone piece.

#### Acceptable Cones:

Cones with punctures or small areas of staining due to materials such as asphalt, cement or dirt. Also, Part cones with the full upper part of the cone intact

For more information and to submit photos please visit our online form: [conerecycling.rtl.co.nz](http://conerecycling.rtl.co.nz)
