

RTL 900mm Enviro Cones

TTMC Compliant Road Cone

Our 900mm Enviro Traffic Road Cones are designed for every day use on Local or NZTA roads. With both a standard or heavy option available, our Enviro Cones are fully compliant to NZTA TTMC specifications and they stack with both the RTL Slimline Cone and Slim Composite Cone. The Cone feature Class 400 3M Cone Collars for exceptional retro-reflectivity, with a top hand grip and internal ribs to help with release. Contact us today to enquire how you can benefit from choosing the Enviro Cone.

* **NZTA TTMC Compliant**

* **Durable 3M Class 400 Cone Collars**

* **Recyclable**

Key Feature:
Our Cones utilise 3M tear resistant retro-reflective cone collars that meet the AS/NZS 1906.1 standard.

Cone recess for added protection

Placing an Order

For ease of ordering, please mention the Enviro Cone TC14 70B2 or the Enviro Heavy TC14 76B2.

Turn over for cone branding options and additional accessories like cone bars and cone sleeves.

Cone Branding & Accessories

Branding Options

To enhance your company profile and also let you quickly identify your gear onsite, RTL offer a FUSION Branding and or screen printing service where we brand your company logo onto the cone.

Fusion - Anti-theft

Anti theft permanent branding in the upper section of the cone

Screen-printing

Standard print branding

Under CoPTTM, company logos applied to the sides of delineation devices must be no greater than 5000mm² (eg: 50mm x 100mm) with the top of the logo being no higher than 200mm (±20mm) from the road surface.

Retro-reflective Cone Collars

Our replacement cone collars are precut to suit either our Slim or Wide Profile cones. Upper and lower cone collars are sold separately.

Slim Profile

Wide Profile

Cone collars are made from a self-adhesive 3M tear resistant retro-reflective sheeting that meets the NZTA retro-reflective AS/NZS 1906.1 requirements.

Extendable Cone Bars

Cone bars are used to provide a channel for pedestrians on work sites where workers are in attendance. They should only be used in conjunction with positive traffic management and not be used to replace a safety fence or left unattended when a work site closes.

CoPTTM Compliant

Retro-reflective sheeting complies with retro-reflective AS/NZS 1906.1 requirements.

Extends up to 2m

No Stopping Sleeves

Same use as the No Stopping Cones but these can be used on Slim Profile cones and are sold in packs of 10.

Each pack contains:
one left arrow, one right arrow and 8 double arrows.

Cones are sold separately.

Custom Cone Covers

Example Text

Heavy duty cone covers that can be custom printed with the message you need to convey i.e. Power Line Overhead.

We have both a slim profile and wide profile cover available (slim shown).

Cones are sold separately.
