

LED Traffic Safety Wands

Our range of Traffic Wands are used for temporary traffic management (TTM) and crowd control during road works, events, festivals, expos and at emergency situations. With three models to choose from, all our wands are compact, durable, light weight and easy to use.

Features:

- Highly visible
- Bright LEDs with multiple modes
- Ribbed grip design
- Hard-wearing plastic construction
- Battery powered
- On/ Off / Mode selector button
